cono bajo  
1960 gr  
cono alto  
1690 gr

**Position 4**  
low cone  
1240 gr  
high cone  
990 gr

**Position 3**  
low cone  
1100 gr  
high cone  
775 gr

**Position 2**  
low cone  
1000 gr  
high cone  
750 gr

**Position 1**  
low cone  
940 gr  
high cone  
690 gr

**Position 0**  
low cone  
890 gr  
high cone  
640 gr

## EasyLevel, perfect cleaning & disinfection !!

### At the end of the flock :

Thanks of opening in the bottom of pan, Inner feed cones can be easily dismounted for cleaning and disinfection, simply with a clockwise turn. Feed cones remain hanged in black subjection disks.

There are not any other feed pans on the market, that could be easily cleaned than EasyLevel feed pans

## EasyLevel, also for adult turkeys !!

### Multipurpose Feed Pan :

The EasyLevel feed pan has no grill. This absence of grill, allows feed pan to be used to raise broilers, breeders and cockerels. Also big birds like Ducks and Turkeys till end of the flock.

For Ducks and Turkeys, an anti-waste ring is provided for use in the feed pan since the sixth week of the flock, to bind the big birds to feed in the inner part of pan, preventing feed waste. Also, to prevent balancing of feed pan in metal pipe, fixing clamps are available.
